

Information Mosaic to Co-sponsor the 17th Annual Securities Operations Conference in New York on October 2nd, 2008

Information Mosaic is one of the sponsors and exhibitors of the 17th Annual Securities Operations Conference in New York on October 2nd, 2008. The Securities Operations Forum, a division of the Summit Group, is organizing the event. The annual conference was established to explore ways in which securities can be processed in the most efficient ways through the use of best practices and modern technologies. This year's theme is "Convergence and Transformation of the Global Securities Industry." Senior level executives from leading brokerage firms, custodian banks, investment management firms, and industry infrastructure organizations will be in attendance. Topics will include global industry trends, outsourcing and ASP solutions, portfolio management systems, and operational risk.

Information Mosaic will be featuring its global custody solution, converg-e™, as well as its award-winning Corporate Actions Management Application, CAMA™, at the event.
