Information Mosaic To Sponsor Financial Technologies Forum's 3rd Annual Corporate Actions Processing Conference

New York, September 28, Information Mosaic, the trusted provider of advanced custody, asset and wealth management solutions to the investor services industry, announced today that it will be a sponsor of Financial Technologies Forum's 3rd Annual Corporate Actions Processing Conference being held on October 14th in New York. Gerard Bermingham, Information Mosaic's Vice President of Professional Services will participate on the panel, "Using Corporate Actions Data Standards to Reduce Costs, Mitigate Risk and Increase Efficiencies."

Mr. Bermingham is a former practitioner and was the head of corporate actions operations at a leading financial institution, He was a key contributor in the design of Information Mosaic's award winning corporate actions management application, cama™. Financial Technologies Forum conducts financial industry-focused events in the US and Europe, including conferences on reconciliation, derivatives, and hedge fund operations.

Mr. Bermingham stated, "The events organized by FTF consistently address the issues facing the industry today. The content is always relevant and the panelists and speakers come directly from the industry. I think my past experience as a user / buyer and as a vendor, as well as my involvement in developing cama™, will allow me to contribute a unique perspective to the panel."

Maureen Nolan, President of Financial Technologies Forum, added, "FTF strives to bring the highest level of industry content to each of our conferences. Each event is designed to address the most pressing and topical operational and technological issues facing financial firms. Information Mosaic has been a consistent supporter of our efforts over the years and their presenters have always been well informed and contribute an insightful industry perspective."
